

## PRESS COVERAGE

DIAGNOS Inc. - Presenter at the Emerging Growth Conference

DIAGNOS (TSXV: ADK, OTCQB: DGNOF) was a presenter at the Emerging Growth Conference. André Larente, the company's President and CEO, presented at the live, interactive online event on June 10, 2026 at 9:05 AM ET.

We welcomed the opportunity to present our current corporate position and our strategic roadmap for expansion across AI-enabled retinal imaging, optical retail, clinical screening, and broader medical imaging applications.

For investors following the digital health and AI medical imaging space, the DIAGNOS story sits at the intersection of a few important themes:

- Growing demand for scalable screening tools
- Increased adoption of digital imaging in eye care
- Shortage of ocular specialists
- Expansion of AI-enabled decision support in clinical workflows
- Commercial traction across optical retail and medical institution channels

The presentation included an update on DIAGNOS' platform, market opportunity, commercial priorities, and upcoming areas of focus.

The session aired live, giving the opportunity for investors, advisors, and analysts to ask questions during the event.
